Lake County, Florida ARES Frequency Plan

Check N4FLA.org often, especially before deployment, for updates
Effective April 8, 2008

			High Frequency (HF) Emergency Nets		
3.950 MHz	LSB		North Florida Emerg. Net		
7.254	LSB		North Florida Emerg. Net		
14.325	USB		National Hurricane Cent.		
3.651	CW		QFN		
7051	CW		QFN		

These frequencies are to be available in your radio and it is strongly suggested that you program and test as many as possible NOW rather than under the pressure of a deployment. These frequencies are continuously reviewed and may change or need to be revised. Please feed back any difficulties that you may have in getting the repeaters to respond on the Daily ARES/RACES Net.

Check n4fla.org often and check the date of the posting to make sure that you are current!
